CCSD asks for parents' opinions and suggestions
Annual parent survey available at ccsd.net

LAS VEGAS – Safety, academics and school climate are among the many topics that are the focus of the 2017 Clark County School District (CCSD) Parent Survey, available online from Oct. 30 – Dec. 22, 2017, at ccsd.net/survey. The 10-minute survey, available in English and Spanish, is confidential and part of the district's efforts to engage the community on important issues facing students and their families.

“Engagement is one of the district’s Pledge of Achievement success indicators. The annual survey is an important opportunity for us to hear from and listen to what parents think about their child’s school and the district as a whole,” said Superintendent Pat Skorkowsky. “It is vital that we receive feedback from parents as CCSD employees work hard to improve all areas of education.”

Surveys have also been designed for students and staff to take at ccsd.net/survey, in order for CCSD to obtain a full representation of all groups that make up the school district.

Questions asked in the survey align with district goals, focus areas and strategic imperatives that will be used to help make improvements to schools and increase parent engagement. As part of the district’s efforts to maintain transparency with the community, survey results will be made available to the public in early 2018.

For parents and guardians who wish to participate, but do not have computer/Internet access, the following locations have computers available for public use:
