CCSD Reopening Our Schools Working Group provides update on progress of work

Reopening Our Schools Family and Community Survey has more than 67,000 respondents on first day

LAS VEGAS - The Clark County School District's (CCSD) Reopening Our Schools Working Group continues to meet to provide input that will inform CCSD's plan for the reopening of schools for the 2020-21 school year.

The working group members have been organized into subgroups to work on areas of focus that explore potential scenarios for the reopening of schools this fall. As part of the process, members are reaching out to other stakeholders for input.

A Reopening Our Schools Family and Community Survey has also been shared with students, parents, staff and community members, and within 24 hours CCSD received more than **67,000** responses. The survey is available in English and Spanish and is open through June 1 online at ccsd.net.

The large working group will reconvene next week and members of the subgroups will share their conversations and input.

Components within the options of reopening schools this fall that are included in the scope of work of the Reopening Our Schools Working Group are:

- Governance/Communication - Essential actions that will foster a shared understanding of goals, responsibilities and accountability.

- Wellness - Essential actions to keep staff and students safe and healthy.

- Instruction - Essential actions to achieve a comprehensive understanding of students' academic and social-emotional well-being when they return and to effectively transition back to instruction in the classroom.

- Post-secondary - Essential actions to keep students on track to postsecondary success.

- Facilities - Essential actions necessary to ensure district and school assets are, and remain, safe for students and staff to inhabit.

- School Operations - Essential actions to ensure operations support a safe and organized transition back to classroom instruction.

- Technology - Essential actions to ensure technology infrastructure, assets and guidance support an organized transition to classroom instruction.
